

FULL SPECTRUM HEMP OIL

ASCENT
naturals

*Hemp Extract with everything the plant has to offer,
including cannabinoids, terpenes, and flavonoids.*

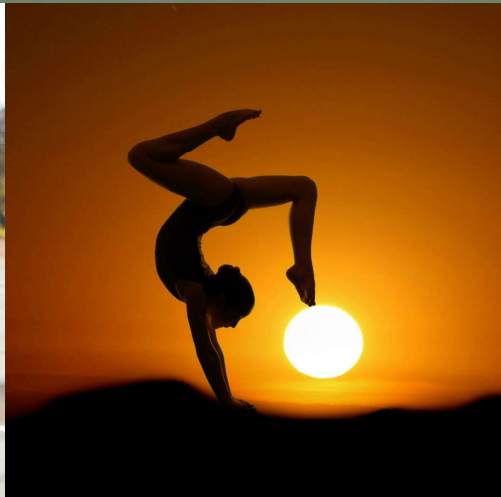

WHY FULL SPECTRUM OIL?

Leaving the terpenes and other plant material creates the "entourage effect".

WHAT IS THE ENTOURAGE EFFECT?

It is the cannabinoids, terpenes, and flavonoids working synergistically to create stronger effects than they could achieve individually.

WHAT ARE TERPENES?

They are organic compounds that give a plant its aroma and flavor. In Full Spectrum Hemp Oil, the terpenes provide an earthy flavor.

WHAT IS FULL SPECTRUM ZERO THC ?

THC is removed from the Full Spectrum Extract.
